CO-HOST

SUPPORTED BY

# Connect with us at booth G001

## Attend our sponsored sessions

Location : Conference Halls 1-3, Level 3

### Session 1

11 July, 13:00 – 14:00

Essilor® Stellest® lenses: Five-year clinical trial results and latest evidence-based strategies in combination with low-dose atropine.

#### Speakers

Prof.  
Mark Bullimore

Dr.  
Bryan Sim

Prof.  
Aldo Vagge

Ms.  
Olga Prenat

Ms.  
Adeline Yang

---

### Session 2

13 July, 12:15 – 13:15

Essilor® Stellest® lenses: Novel approaches in myopia management.

#### Speakers

Prof.  
Mark Bullimore

Prof.  
Saw Seang Mei

Ms.  
Olga Prenat

Ms.  
Adeline Yang

---

#### Moderator

Prof.  
Dominique Bremond-Gignac

Welcome to the 5<sup>th</sup> World Congress of Paediatric Ophthalmology and Strabismus, Kuala Lumpur 2024!

Esteemed Colleagues, Honored Guests, and Beloved Friends,

With immense excitement, we extend our heartfelt welcome to the vibrant city of Kuala Lumpur for the highly anticipated 5<sup>th</sup> World Congress of Paediatric Ophthalmology and Strabismus (WCPOS V), which will take place from 11<sup>th</sup> to 13<sup>th</sup> of July 2024. This remarkable event is held in conjunction with the 14<sup>th</sup> Malaysian Society of Ophthalmology Annual Scientific Meeting (14<sup>th</sup> MSO-ASM).

This congress is poised to be the largest assembly of its kind, where pioneering research, global clinical expertise, and compassionate patient care converge to shape the trajectory of paediatric ophthalmology and strabismus management. Over the course of this exceptional event, you will have the privilege to engage with esteemed international luminaries, exchange revolutionary ideas, and immerse yourselves in the forefront of advancements that are redefining our approach to ocular health in children.

Our three keynote speakers are Professor Stephen Kraft from Canada for Strabismus, Professor P. Vijayalakshmi from India for Non-strabismus and Professor Shigeru Kinoshita from Japan for the Kanski Lecture.

From captivating keynote lectures by key opinion leaders in the field to immersive workshops and enlightening symposia, our meticulously curated scientific programme spans the entire spectrum of paediatric ophthalmology and strabismus. This comprehensive and inclusive event is designed to engage paediatric ophthalmologists and general ophthalmologists, optometrists, and orthoptists.

For those with adult ophthalmological practice, the 14<sup>th</sup> MSO-ASM has lined up an exciting adult ophthalmology-centric programme to complement the WCPOS scientific programme.

As you participate in the congress, we invite you to explore the charms of Kuala Lumpur and Malaysia. From the iconic Petronas Twin Towers to the bustling allure of street markets, the UNESCO Heritage-listed gems of Melaka and Georgetown, and the delectable tapestry of culinary delights, this culturally diverse country eagerly awaits your exploration. The fusion of Malaysia's hospitality with the spirit of scientific pursuit promises to transform this event into an unforgettable memory.

Join us at the 5<sup>th</sup> World Congress of Paediatric Ophthalmology and Strabismus, where we eagerly anticipate your presence as we unite hands and hearts to illuminate a brighter, clearer future for our patients!

# About WSPOS

## WSPOS

World Society of Paediatric  
Ophthalmology and Strabismus

The World Society of Paediatric Ophthalmology and Strabismus (WSPOS) is a global community and charity dedicated to advancing the care of children's vision around the world. With over 4,000 members from more than half the countries of the World, WSPOS has been bringing together leading experts in paediatric ophthalmology and strabismus since its inception in 2009. Guided by the motto "Expertise Resides All Over The World", this collaborative community has made a difference for children with eye problems and adults with strabismus worldwide.

At the heart of WSPOS is a spirit of collaboration, education, equity and service. The society works to foster connections between paediatric ophthalmologists across borders and specialties through its World Congresses, International Webinars, Global Consensus Statements, and an online community. WSPOS also aims to support research and share best practices to improve clinical care and advocacy for children's vision needs – working diligently to eliminate preventable vision loss in pediatric patients while simultaneously advancing help for adults with strabismus.

The flagship World Congress of Paediatric Ophthalmology and Strabismus (WCPOS) meets regularly every few years in major cities worldwide. This WCPOS, i.e., WSPOS V will be held in 2024 in the vibrant, multi-cultural city of Kuala Lumpur, Malaysia. With the timely theme of "Re-Connecting the World," WCPOS V 2024 promises to be the largest gathering of paediatric ophthalmology and strabismus specialists yet.

The exceptional faculty boasts global experts who will lead sessions on groundbreaking research before it appears anywhere else and innovative approaches in areas like paediatric cataracts, retinopathy of prematurity, paediatric glaucoma, and more. Members will learn new techniques hands-on from esteemed experts, gain global perspectives, reconnect with worldwide colleagues, and help shape the future of paediatric ophthalmology and strabismus care. Attendees will enjoy opportunities for collaborative learning, networking, and experiencing Malaysian culture. Whether English is your first language or not, you will be seen and heard.

As WSPOS looks ahead, its commitment remains to foster global connections, drive innovation, deliver the best possible eye care to children & adults with strabismus everywhere, and eliminate preventable vision loss – creating a brighter tomorrow.

# MSO Welcome Message

AHMAD TAJUDIN**  
*Scientific Chairperson*

---

On behalf of the organising committee, we are delighted to invite you to the 14<sup>th</sup> Malaysian Society of Ophthalmology Annual Scientific Meeting (MSO-ASM), held in conjunction with the 5<sup>th</sup> World Congress of Paediatric Ophthalmology and Strabismus (WCPOS V). This significant event will take place from July 11<sup>th</sup> to 13<sup>th</sup>, 2024, at the Kuala Lumpur Convention Centre.

MSO-ASM is the premier platform for the Malaysian Society of Ophthalmology, dedicated to promoting continuous medical education and professional development within the ophthalmology community. For the first time in history, Kuala Lumpur, with MSO as the proud host, is organising a world-level conference, co-hosted by the World Society of Paediatric Ophthalmology and Strabismus (WSPOS).

The theme for this year's MSO-ASM meeting is "Updates In Ophthalmology: The Latest and The Greatest." Spanning over three days, we have planned an exciting, adult ophthalmology-centric program focusing on the latest and greatest advances in all ophthalmology subspecialties.

Our keynote speaker for the Dato' Dr. Selvarajah Lecture is Professor Dr Ham Don-Il from South Korea. This event marks our collaboration with the Korean Ophthalmological Society (KOS), established on 24<sup>th</sup> February 2023.

We look forward to welcoming you to the 14<sup>th</sup> MSO-ASM 2024 and hope you will thoroughly enjoy the meeting!

Thank you for your support in making this meeting a success.

# About MSO

## MALAYSIAN SOCIETY OF OPHTHALMOLOGY

The Malaysian Society of Ophthalmology (MSO) was first formed in 1964 by pioneering Malaysian ophthalmologists as a society within the Malaysian Medical Association (MMA) designated as the MMA Ophthalmological Society (MMAOS).

Over the following 45 years, the society grew in membership and activities under the umbrella of the MMA, promoting and advancing the speciality. With that, the MSO was formed and successfully registered with the Registrar of Societies on April 15, 2008. The MMAOS was dissolved on December 31, 2009.

As our predecessor society had done so well over the years, the MSO will continue to carry the flag for the profession of Ophthalmology in Malaysia, having taken over all the duties and functions of the MMAOS.

- The Malaysian Society of Ophthalmology (MSO) has played a significant role in hosting major ophthalmology congresses in the past five years. These congresses include:
- APVRS (Asia-Pacific Vitreo-retina Society) Congress 2017 focused on vitreo-retinal diseases and surgery in the Asia-Pacific region. It brought together experts and professionals to discuss the latest developments and advancements in vitreo-retina-related topics.
- APGC (Asia-Pacific Glaucoma Congress) 2022. The APGC Congress focused on glaucoma, a common eye condition that can lead to vision loss if not properly managed. This congress brought together experts and professionals specialising in glaucoma to discuss the latest diagnostic and treatment strategies.
- APAO (Asia Pacific Academy of Ophthalmology) Congress 2023. The APAO Congress is the largest and most prestigious ophthalmology conference in the Asia Pacific region. It covers a wide range of ophthalmological topics and serves as a platform for eye doctors to exchange knowledge and collaborate on research and advancements.

Hosting these congresses highlights Malaysia's commitment to advancing ophthalmology and eye care in the Asia-Pacific region. It provides a valuable platform for professionals in these specialised fields to share their expertise, collaborate on research, and improve the quality of eye care for patients in the region and beyond. These events play a crucial role in promoting the exchange of knowledge and advancements in the field of ophthalmology.

	1740	CLOSING CEREMONY					
1830	Young Ophthalmologists’ Night (By Invitation Only)						

# **SOCIAL PROGRAMME**

# Social Programme

## OPENING CEREMONY

 11 July 2024 (Thursday)  
 Plenary Theatre, Level 3, KLCC  
 0900 – 0945  
 Open To All Delegates

Sponsored by:

**UPMC**

**CHILDREN'S**  
HOSPITAL OF PITTSBURGH

## SPEAKERS COCKTAIL RECEPTION

 11 July 2024 (Thursday)  
 Traders Hotel, Kuala Lumpur  
 1800 Onwards  
 Invited Faculty Only

 12 July 2024 (Friday)  
 Exhibition Hall 8, Level 4, KLCC  
 1830 Onwards  
 Ticketed Event

## GALA DINNER

## CLOSING CEREMONY

 13 July 2024 (Saturday)  
 Conference Halls 1-3, Level 3, KLCC  
 1740 Onwards  
 Open To All Delegates

## YOUNG OPHTHALMOLOGISTS NIGHT

 13 July 2024 (Saturday)  
 Envi Skydining, Menara TA One  
 1830 Onwards  
 By Invitation Only

# Paediatric: Free Paper

11 July 2024 (Thursday)  
Conference Hall 1, Level 3

**FREE PAPER #1**  
**CATEGORY: OTHER MYOPIA MANAGEMENT**  
11:30 - 12:45 hrs

**BARIAH MOHD ALI**  
Malaysia

The efficacy of orthokeratology lens in controlling myopia progression and improving vision related quality of life of myopic children in Kuala Lumpur

**FREE PAPER #1**  
**CATEGORY: AMBLYOPIA & VISION SCREENING / TESTING**  
11:30 - 12:45 hrs

**YUNYUN WANG**  
China

Comparison of the prevention and control effect and clinical application of three different myopic control methods: Repeated Low-Level Red Light, orthokeratology and 1% atropine

**FREE PAPER #1**  
**CATEGORY: LOW VISION / VISION REHABILITATION**  
11:30 - 12:45 hrs

**XUE LI**  
China

Short-term Orthokeratology Effects on Corneal Biomechanics with a focus on SPA1 and SSI Parameters in pediatric myopia

**FREE PAPER #1**  
**CATEGORY: OTHER MYOPIA**  
11:30 - 12:45 hrs

**RAYMUND ANGELES**  
United States

Efficacy and Safety of Low Concentration Atropine Eye Drops in Pediatric Patients with Myopia: A Phase 2/3 Study

**FREE PAPER #1**  
**CATEGORY: OTHER OPTICS / REFRACTION / MYOPIA**  
11:30 - 12:45 hrs

**SHEETAL MUNDE**  
India

Peripheral hyperopic defocus (HD) trend in progressing myopic patients in the Indian pediatric population

**FREE PAPER #1**  
**CATEGORY: OTHER MYOPIA / AMETROPY**  
11:30 - 12:45 hrs

**TONG QIAO**  
China

Clinical Outcomes of Posterior Scleral Reinforcement in Chinese High Myopia Children

**FREE PAPER #1**  
**CATEGORY: OTHER MYOPIA**  
11:30 - 12:45 hrs

**CHANGKANG LUO**  
China

The Efficacy and Safety of Repeated Low-level Red Light in Children with Axial Myopia in North Sichuan, China

11 July 2024 (Thursday)  
Conference Hall 1, Level 3

**FREE PAPER #1**  
**CATEGORY: OTHER MYOPIA**  
11:30 - 12:45 hrs

**ZHENGZHENG WU**  
*China*

Characteristics of Perceptual Eye Position and Fixation Stability in Adolescents with Low Myopia

**FREE PAPER #1**  
**CATEGORY: OTHER REFRACTIVE ERROR: MYOPIA PROGRESSION**  
11:30 - 12:45 hrs

**MALAVIKA MANI**  
*India*

The Burden of Inheritance: The influence of Parental myopia on myopic progression of Indian children on Atropine 0.01% eyedrops.

**FREE PAPER #2**  
**CATEGORY: CATARACT**  
17:00 - 18:00 hrs

**VAISHALI VASAVADA**  
*India*

Seven Year Postoperative Outcomes of IOL implantation in-the-bag vs Optic Capture in children upto 4years of age:Randomized, clinical trial

**FREE PAPER #2**  
**CATEGORY: CATARACT**  
17:00 - 18:00 hrs

**SNEHA PANDURANGAN**  
*India*

A retrospective analysis on long term post operative outcome following paediatric cataract surgery in a tertiary care institute.

## Paediatric: Free Paper

**FREE PAPER #2**  
**CATEGORY: CATARACT**  
17:00 - 18:00 hrs

**NAYANA G**  
*India*

PEDIATRIC CATARACT AND ToRCH INFECTIONS- A COMPREHENSIVE ASSESSMENT

**FREE PAPER #2**  
**CATEGORY: NEURO - OPHTHALMOLOGY**  
17:00 - 18:00 hrs

**WEI SHI**  
*China*

Enhancing Stereoscopic Vision Recovery in Children with Post-Cataract Surgery: A Preliminary Study on Multi-focus Depth Stack Visual Training

**FREE PAPER #2**  
**CATEGORY: OTHER IOL POWER UNDERCORRECTION METHOD IN PEDIATRIC CATARACT**  
17:00 - 18:00 hrs

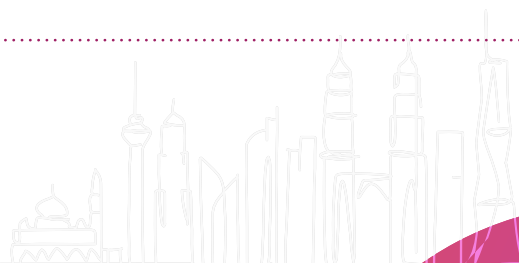

**DAGMAWI ABEBE**  
*Ethiopia*

Comparative Analysis of Paediatric IOL Power Under-correction: Manual vs. Machine Approach.

**FREE PAPER #2**  
**CATEGORY: CATARACT**  
17:00 - 18:00 hrs

**VIRENDER SACHDEVA**  
*India*

Validation of Enyedi Guidelines for undercorrection undergoing primary pediatric cataract surgery in myopic children

# Paediatric: Free Paper

11 July 2024 (Thursday)  
Conference Hall 1, Level 3

**FREE PAPER #2**  
**CATEGORY: CATARACT**  
17:00 - 18:00 hrs

**VIDHARTHI DIWAKARAN**  
India

Etiology of 611 eyes with Unilateral pediatric cataract

**FREE PAPER #2**  
**CATEGORY: CATARACT**  
17:00 - 18:00 hrs

**JITENDRA JETHANI**  
India

Small sized (Customised IOL) in pediatric cataract with microcornea

**FREE PAPER #2**  
**CATEGORY: CATARACT**  
17:00 - 18:00 hrs

**SHREYA GUPTA**  
India

Myopic shift, refractive and visual outcomes after 5 years of Infantile cataract surgery: Our experience and review of literature

12 July 2024 (Friday)  
Conference Hall 1, Level 3

**FREE PAPER #3**  
**CATEGORY: STRABISMUS / NYSTAGMUS**  
13:15 - 14:30 hrs

**TONG QIAO**  
China

Automated Detection of Steps in Videos of Strabismus Surgery Using Deep Learning

**FREE PAPER #3**  
**CATEGORY: STRABISMUS / NYSTAGMUS**  
13:15 - 14:30 hrs

**RUNTING MA**  
China

Efficacy of botulinum toxin type A (BTXA) in treating early-stage patients with small-angle acute acquired comitant esotropia (AACE): A retrospective cohort study

**FREE PAPER #3**  
**CATEGORY: STRABISMUS / NYSTAGMUS**  
13:15 - 14:30 hrs

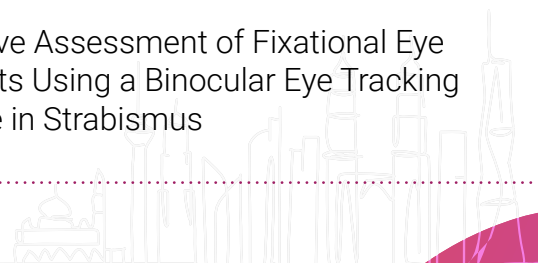

**JANANI RAJENDRAN**  
India

Surgical management of third nerve palsy, a comparison of lateral rectus deactivation Combined with medial rectus resection versus medial rectus fixation to medial palpebral ligament

**FREE PAPER #3**  
**CATEGORY: STRABISMUS / NYSTAGMUS**  
13:15 - 14:30 hrs

**YONGCHUAN LIAO**  
China

Quantitative Assessment of Fixational Eye Movements Using a Binocular Eye Tracking Technique in Strabismus

12 July 2024 (Friday)  
Conference Hall 1, Level 3

**FREE PAPER #3**  
**CATEGORY: SURGICAL TECHNIQUES**  
13:15 - 14:30 hrs

**MEIHUA PAN**  
*China*

Novel Surgical Method of Anterior Ciliary  
Vessels Preservation in Routine Strabismus  
Microsurgery

**FREE PAPER #3**  
**CATEGORY: SURGICAL TECHNIQUES**  
13:15 - 14:30 hrs

**MEIHUA PAN**  
*China*

Novel Instrumentation for Assistant-Free  
Strabismus Surgery

**FREE PAPER #3**  
**CATEGORY: SURGICAL TECHNIQUES**  
13:15 - 14:30 hrs

**HANG TRAN**  
*Vietnam*

Combine extraocular muscle fenestration with  
Jensen technique in management of chronic  
complete sixth nerve palsy

**FREE PAPER #3**  
**CATEGORY: SURGICAL TECHNIQUES**  
13:15 - 14:30 hrs

**LI YEN CHAN**  
*Malaysia*

OUTCOMES OF FOUR-POINT SUTURED  
SCLERAL-FIXATED INTRAOCULAR LENS  
IMPLANTATION USING GORE-TEX SUTURE IN  
PAEDIATRIC EYES

## Paediatric: Free Paper

**FREE PAPER #3**  
**CATEGORY: SURGICAL TECHNIQUES**  
13:15 - 14:30 hrs

**SAVLEEN KAUR**  
*India*

Outcomes of imaging based reoperations in  
strabismus

**FREE PAPER #3**  
**CATEGORY: STRABISMUS / NYSTAGMUS**  
13:15 - 14:30 hrs

**YAN WU**  
*China*

Prismatic treatment of acute acquired  
concomitant esotropia of 25 prism diopters or  
less

**FREE PAPER #3**  
**CATEGORY: STRABISMUS / NYSTAGMUS**  
13:15 - 14:30 hrs

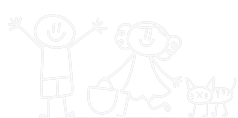

**NIZMA PERMAISUARI**  
*Indonesia*

A Descriptive on Adult-onset Strabismus in a  
National Referral Hospital in Indonesia

**FREE PAPER #4**  
**CATEGORY: RETINA / UVEITIS**  
16:15 - 17:30 hrs

**WAN WEN SOH**  
*Malaysia*

A retrospective study on the anatomical and  
visual outcomes after vitrectomy for infants  
with stage 4 and 5 retinopathy of prematurity in  
Hospital Kuala Lumpur

12 July 2024 (Friday)  
Conference Hall 1, Level 3

**FREE PAPER #4**  
**CATEGORY: OTHER RETINOBLASTOMA**  
16:15 - 17:30 hrs

**SAIMA AMIN**  
Pakistan

Battling with retinoblastoma- Adjuvants in the treatment of Retinoblastoma Recurrence

**FREE PAPER #4**  
**CATEGORY: OTHER RETINOBLASTOMA**  
16:15 - 17:30 hrs

**SAIMA SAIMA**  
Pakistan

NAVIGATING THE CHALLENGES OF  
RETINOBLASTOMA- ADDRESSING THE ISSUES

**FREE PAPER #4**  
**CATEGORY: RETINA / UVEITIS**  
16:15 - 17:30 hrs

**ANGELA THERESE UY**  
Philippines

Modifying the screening schedule for retinopathy of prematurity

**FREE PAPER #4**  
**CATEGORY: RETINA / UVEITIS**  
16:15 - 17:30 hrs

**YSE BORELLA**  
France

Screening at-risk ROP patients: Use of a single small field image centred on the optic disc

## Paediatric: Free Paper

**FREE PAPER #4**  
**CATEGORY: OTHER RETINOPATHY OF PREMATURITY**  
16:15 - 17:30 hrs

**PAUL RUNGE**  
United States

Compare and Contrast Treatment of Threshold Retinopathy of Prematurity(ROP) Using the Red(810nm) vs Green(520nm) Laser in Western Ukraine.

**FREE PAPER #4**  
**CATEGORY: AMBLYOPIA & VISION SCREENING / TESTING**  
16:15 - 17:30 hrs

**SANG SANG LE**  
Vietnam

EVALUATION OF OCULAR BIOMETRIC INDICATORS AND RISK OF ONSET OF MYOPIA IN PRESCHOOL CHILDREN IN HANOI

**FREE PAPER #4**
